CERTIFICATE OF APPRAISAL

Carved Wooden Flute Player Figure

Unattributed · Tall hand-carved wooden statue of a youthful nude figure, likely a faun or putto, playing a small pipe or flute

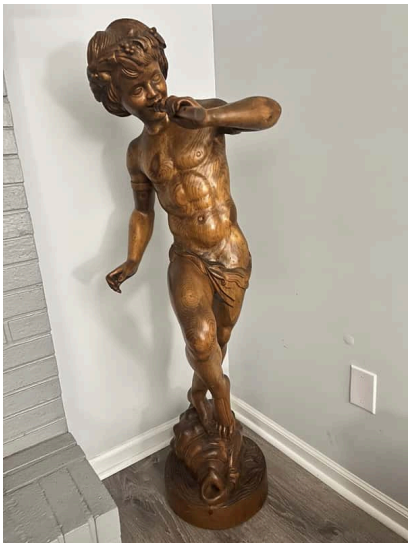

Fig. 1 Subject photograph.

OBJECT IDENTITY

MAKER	Unattributed
OBJECT	Tall hand-carved wooden statue of a youthful nude figure, likely a faun or putto, playing a small pipe or flute
MATERIAL	Hand-carved wood
REPORT ID	f477694d
EFFECTIVE DATE	10 Aug 2026
VALUE BASIS	Replacement value

REPLACEMENT VALUE

$8,500

A standing, unattributed carved wooden youthful wind player wears a leafy head detail and drapery. One arm rises toward the mouth; the other lowers beside the body.

This certificate confirms that the referenced item has been reviewed for insurance scheduling and valued as of the effective date shown, based on the information provided and market evidence.

Unattributed. No signature or maker mark is visible in the supplied photographs; the identification is limited to a carved wooden Bacchic, Pan, faun, or putto-like figure.

USD 8,500 is the accepted appraiser-reviewed retail replacement value as of 2026-08-10. Auction analogs document related objects but are not direct replacement costs; no mathematical uplift or independent retail transaction is asserted.

APPRAISER

Andrés G.

Professional Appraiser

The appraiser personally prepares and signs every professional appraisal issued through Appraisily and reviews the submitted evidence, market analysis and final value conclusion before signing. Appraisily retains order and final-report records for this work. Full appraiser name appears on the delivered signed report.

SECTION 1

Assignment Summary and Scope of Work

The assignment terms below define the reliance boundary for the supporting analysis that follows.

INTENDED USE	Insurance scheduling, replacement planning, underwriting documentation, or coverage review.
INTENDED USER	Client, insurer, and authorized insurance representatives.
VALUE STANDARD	Replacement value
DEFINITION OF VALUE	The estimated cost, as of the effective date, to replace the property with one of like kind and quality in the appropriate retail market.
EFFECTIVE DATE	10 Aug 2026
PREPARED ON	23 Sep 2026

Opinion developed from submitted photographs, descriptions, condition information, and market evidence suitable for insurance scheduling and replacement planning. No physical inspection was performed unless separately stated.

SECTION 2

Valuation Conclusion

REPLACEMENT VALUE
$8,500

VALUE STANDARD	Replacement value
DEFINITION OF VALUE	The estimated cost, as of the effective date, to replace the property with one of like kind and quality in the appropriate retail market.
EFFECTIVE DATE	10 Aug 2026
PURPOSE	Insurance

The appraiser-reviewed Retail Replacement Value for insurance use is USD 8,500, effective August 10, 2026. This is the accepted point conclusion for the described carved wooden figure.

Valuation Methodology

The conclusion uses the accepted retail replacement standard for insurance use. Related realized auction sales establish secondary-market context, not a dealer’s replacement cost. The appraiser’s accepted point value is retained without a computed uplift or conversion from those sales.

Value Reconciliation and Final Opinion

USD 8,500 is the accepted appraiser-reviewed retail replacement value as of 2026-08-10. Auction analogs document related objects but are not direct replacement costs; no mathematical uplift or independent retail transaction is asserted.

SECTION 3

Comparable Market Sales

The selected sales provide comparisons with related objects; differences are explained below.

The 2 selected sales range from $110 to $1,400, with a median of $755 and an average of $755. These figures describe the selected sales; they do not calculate the appraisal conclusion.

Relevance is an overall comparison score out of 100. It does not calculate the appraisal value.

TABLE 1

IMAGE	COMPARABLE / WHY RELEVANT	SOURCE / DATE	PRICE	RELEVANCE
	**Large Continental Carved Wood Bacchanalian Figure, 62"** The 2025 sale describes a large Continental carved wooden Bacchanalian boy blowing a horn on a shell, closely matching the youthful wind-player subject and scrolled base; its horn, documented 62-inch size, and unknown correspondence to this object prevent same-object identification.	**Austin Auction Gallery** Jan 26, 2025 · Lot 3078	**$1,400**	78 / 100
	**Painted Carved Wooden Statue Of Pan** The 2025 sale describes a carved wooden Pan playing a flute, sharing material and mythological musician subject; it is seated, painted, 30.5 inches high, and extensively chipped, unlike the standing natural-finish subject shown here.	**Dargate Auction Galleries** Oct 19, 2025 · Lot 1546	**$110**	64 / 100

SECTION 4

Item identification

A standing, unattributed carved wooden youthful wind player wears a leafy head detail and drapery. One arm rises toward the mouth; the other lowers beside the body. The figure rests on a scrolling base with pronounced grain and carved detail.

MAKER
Unattributed

DIMENSIONS
Exact dimensions not supplied

MATERIAL
Hand-carved wood. Carved wood with pronounced grain; species and assembly unverified.

MARKS
No visible signature or maker mark in supplied views

ITEM TYPE	Tall hand-carved wooden statue of a youthful nude figure, likely a faun or putto, playing a small pipe or flute
CONDITION	Generally good as described in this report, with surface wear, minor dings, natural knots, shallow abrasions and small chips at the base and limbs, and light handling sheen.

SECTION 5

Full Appraisal Analysis

The following analysis explains the item identification, comparable sales, and value conclusion in more detail. It should be read together with the Scope, Certification, Assumptions, and Limiting Conditions section of this report.

Market and Comparable Evidence

Two 2025 auctions sold wooden mythological wind players. Seven broader wooden-figure auctions span 2022–2026 and include standing, seated, painted, gilt, architectural, and differently styled examples. Transactions were recorded in USD and EUR; the EUR result was considered qualitatively, without a currency conversion.

Why These Comparables Matter

“LARGE CONTINENTAL CARVED WOOD BACCHANALIAN FIGURE, 62"” shares the standing wooden wind-player theme, but holds a horn and has a documented 62-inch height. “PAINTED CARVED WOODEN STATUE OF PAN” shares the flute and mythological subject, but is seated, painted, 30.5 inches high, and cataloged with cracks and chips. “Continental Carved Wood

Putto" is a broader 32-inch classical-figure sale without a wind instrument. The third sale offers wider classical-figure context; none is a retail transaction.

Evidence Coverage and Open Questions

The research reviewed 2 selected analogous sales and 7 broader market records. The selected sales are the comparison evidence; the broader records inform the market background and are not treated as direct matches. The evidence most likely to change confidence or market positioning is acquisition or ownership records.

SECTION 7

Insurance Scheduling Information

COVERAGE TYPE	Scheduled personal property / valuable articles coverage review
APPRAISED VALUE FOR SCHEDULING	$8,500
POLICY LIMITS / SUBLIMITS NOTE	Standard policies may limit coverage for art, antiques, collectibles, or fragile property unless the item is scheduled or otherwise endorsed; confirm applicable sublimits with the insurer or broker.
COVERAGE DECISION NOTE	Final coverage, limits, deductibles, exclusions, and claim handling remain subject to the insurer or broker.

Policyholder, insurer and policy details were not supplied, so they are not printed here. Give them to your insurer or broker with this report.

SECTION 8

Insurance Scheduling Support

INSURANCE VALUE BASIS	Replacement value
REPLACEMENT SCENARIO	Replacement with an item of comparable type, quality, condition, age, authorship, and market desirability from the appropriate retail, dealer, specialist, or secondary market where available.
VALUE DISTINCTION	Retail replacement value is an insurance scheduling estimate and should not be read as fair market value, expected auction price, liquidation value, or IRS donation value.
CONDITION BASIS	Generally good as described in this report, with surface wear, minor dings, natural knots, shallow abrasions and small chips at the base and limbs, and light handling sheen.
COVERAGE NOTE	This appraisal supports scheduling or coverage review only; it is not an insurance policy, coverage recommendation, underwriting approval, or claim decision.

Replacement Market Analysis

- Auction and secondary-market records were used as market evidence and reconciled to a retail replacement-value premise where exact retail replacement evidence was unavailable.
- Value is reconciled from comparable market evidence, retail availability, item condition, scale, medium, authorship or maker attribution, and sourcing difficulty.
- For unique artwork, antiques, or scarce collectibles, exact replacement may not be possible; comparable replacement is the practical insurance premise.

Insurance Documentation Checklist

- Submit this report with clear photographs of the front, reverse, signature or mark, condition issues, and any labels, invoices, receipts, or provenance records.
- Confirm whether the item is scheduled separately and whether coverage is replacement cost, agreed value, actual cash value, or limited by policy sublimits.
- Retain acquisition records, restoration records, prior appraisals, and updated condition photographs with the policy file.
- Review scheduled values after major market movement, restoration, damage, relocation, or at normal policy renewal intervals.
- Confirm accepted appraisal age, exclusions, transit/storage restrictions, and claim documentation requirements with the insurer or broker.

SECTION 9

Scope, Certification, Assumptions, and Limiting Conditions

This page states the scope, certification, assumptions, and limiting conditions that govern use of the appraisal opinion. It applies to the whole report: the certificate, comparable evidence, analysis, and supporting sections.

CERTIFICATION AND INTENDED USE

- The statements of fact in this report are true and correct to the best of the signing appraiser's knowledge, and the analyses, opinions, and conclusions are limited only by the assumptions and limiting conditions stated here.
- This appraisal is prepared independently; the fee is not contingent upon the reported value.
- The signing appraiser has no present or prospective interest in the property or the parties involved.
- Value conclusions reflect market evidence available as of the effective date shown on the cover.
- The report is based on submitted photographs, descriptions, client-provided information, and available market evidence unless an in-person inspection is separately stated.
- This report does not constitute authentication, title verification, legal advice, tax advice, insurance advice, or filing advice unless expressly stated in a signed engagement.
- This report supports insurance scheduling, replacement planning, or coverage review. It is not an insurance policy, coverage recommendation, underwriting approval, or claim decision.
- The stated value is a retail replacement value estimate for scheduling purposes and should not be read as fair market value, expected auction price, liquidation value, or IRS donation value.

ASSUMPTIONS AND LIMITING CONDITIONS

- Object identity, authorship, medium, dimensions, provenance, condition, and ownership facts are assumed from the supplied materials unless independently documented in the report.
- Condition observations are limited by the photographs and descriptions provided; hidden damage, restoration, repairs, alterations, or authenticity issues may affect value.
- Comparable sales can vary by venue, date, buyer premium, currency conversion, condition, provenance, lot quality, and buyer motivation.
- Additional documentation, expert examination, conservation records, provenance evidence, technical analysis, or physical inspection may be incorporated in a future revised report when requested.
- Appraisily is not responsible for decisions made by parties using this report outside the intended use and intended users stated in the report.
- Replacement availability at the concluded value is not guaranteed under all market conditions; policy terms, deductibles, and carrier requirements govern coverage and claim settlement.

RELIANCE BOUNDARY

No warranty is expressed or implied. The appraisal is furnished for the stated purpose only and should be read together with the item facts, market evidence, methodology, and supporting material included in the full report.

DISCLAIMER

This appraisal is an independent opinion of value prepared for insurance scheduling and coverage purposes based on the information and images provided, and publicly available market evidence. It is not, and should not be construed as, a certificate of authenticity. Conclusions may change if additional documentation, expert examinations, conservation records, provenance evidence, or technical analyses become available. Where materials or documentation were not supplied, assumptions have been limited accordingly.

SECTION 10

Provenance

No purchase receipts, invoices, prior appraisals, or ownership records were provided. Please supply any available bills of sale, prior auction receipts, maker documentation, or related supporting records to strengthen provenance.

SECTION 11

Subject Photographs

Customer-provided views reviewed for identity, construction, marks, and condition.

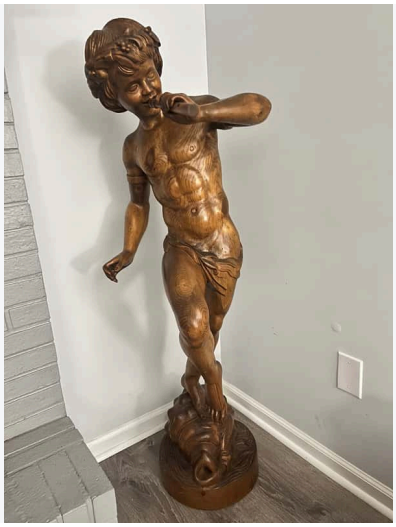

PHOTO 1

PHOTO 2

SECTION 12

Research Recommendations

Record precise measurements and obtain specialist observations on construction, finish, and any concealed damage. A current dealer offer for a closely comparable carved wooden figure would document the retail market basis more directly. Share measured photographs and the report with the insurer. Request its preferred item description and confirm whether further inspection is required for scheduling.

SECTION 13

Glossary

- **Retail Replacement Value (RRV).** The estimated cost to replace the property with a comparable item at retail.
- **Effective Date.** The date on which the replacement estimate applies.
- **Like Kind and Quality.** A replacement that is comparable in creator/attribution, medium, size, age/period, condition, and market level.
